EXPERIENCE

Front-end Developer   Sep. 2022 – Present
Digital Security Village   Nigeria

- Volunteered as a front-end developer for Digital Security Village (Digisecvillage), creating interactive and accessible interfaces using HTML, CSS, and JavaScript that facilitated the education of over 500 applicants in Cybersecurity.
- Collaborated closely with cross-functional teams of five to deliver high-quality results within tight deadlines, ensuring code quality, performance, and accessibility.
- Spearheaded the successful integration of the Google Sheets API, automating the collection of user input from subscription and contact forms, resulting in time savings and improving data accuracy by 95%.
- Maintained and optimized the code base for optimal performance and security, successfully deploying the website to a hosting platform. This resulted in a 20% increase in user engagement and ensured accessibility for all users.

Front-end Intern   Sep. 2023 – Oct. 2023
HNG X Internship Program   Nigeria

- Top 500 finalist among 22,000 participants, showcasing competitive excellence.
- Co-frontend lead for Zuri Portfolio's "Take Assessments" section, with five frontend team members .
- Optimized API integration using React Query, resulting in a 20% reduction in data retrieval time and a 15% decrease in server load.
- Enhanced user experience by implementing loaders, meaningful fallback UI, and effective error displays, resulting in a 40% decrease in user frustration and improved overall product usability.
- Demonstrated exceptional by consistently meeting strict project deadlines.

PROJECTS

Mentor Booking App 🔗 ⊙

- Designed and implemented a highly engaging mentor booking app with an interactive slider button. This allowed seamless changes to mentor images and associated data. It achieved a 4.5-star rating among users.
- Revolutionized the user experience of a mentor booking app by seamlessly integrating Firebase to save form data for booked sessions efficiently. This resulted in increased user satisfaction and repeat usage.

Bank Landing Page 🔗 ⊙

- Built a responsive bank landing page app with animations using React JS and Tailwind CSS
- Deployed the website on the Netlify web server

Music Tunes Site 🔗 ⊙

- Developed a responsive music website with a slider, using HTML, CSS, and JavaScript.
- Ensured optimal performance and cross-browser compatibility.
